

CALL FOR EXHIBITORS AND SPONSORS

**INTERNATIONAL CONFERENCE ON FAN NOISE, AERODYNAMICS,
APPLICATIONS AND SYSTEMS**

**9 to 11 APRIL 2025
ANTIBES JUAN-LES-PINS, FRANCE**

Following on from the great success of the 2012, 2015, 2018 and 2022 events, CETIAT and Cetim are pleased to announce that the next 3 day conference will be held on 9 to 11 April 2025 in Antibes Juan-Les-Pins, France.

This event will be a forum for fan and system designers, manufacturers and operators, with the aim of improving our understanding of fans and their system interaction. The Fan 2022 conference will follow a format with three separate, but complementary tracks.

BEING AN EXHIBITOR OR A SPONSOR

Your involvement with this event is an effective way to network with key decision-makers, helping you to capture your target audience when they are in the frame of mind to do business.

Our flexible opportunities allow you to:

- Showcase new products
- Raise awareness of your organization
- Increase brand awareness
- Influence other organizations' buying decisions

The previous editions has gathered 300 participants from more than 20 countries (2/3 from industry and 1/3 academics) and 20 exhibitors and sponsors.

The exhibition will be situated close to the conference rooms. Coffee breaks and lunches will be served at the venue. An opportunity will be given to each exhibitor to make a short presentation during the exhibitors session planned for the first day of the conference.

CONFERENCE SCOPE

This three-day conference will include keynote lectures and technical presentations. The technical presentations will be organized into three tracks:

- Fan noise
- Fan aerodynamics
- Fan applications and systems

All types of fans used in industrial processes, HVAC, electronic equipment, household appliances, automotive and traction fall within the scope of the conference.

Organized by

www.fan2025.org

TRACK SCHEDULE

Track 1: Fan Noise

- Aerodynamic fan noise generation mechanisms.
- Structure-borne noise.
- Dynamic force transmission.
- Experimental methods for characterizing noise sources.
- Noise source localization.
- Design for low-noise fans.
- Noise prediction by analytical/numerical models.
- Optimization of fan installation to reduce noise.
- Psychoacoustics.

Track 2: Fan Aerodynamics

- Aerodynamic design methods.
- Practical design examples of new generation industrial fans.
- Advancements in traditional testing of fan aerodynamic performance.
- Experimental techniques and computational methods for the detailed analysis of fan aerodynamics.
- Artificial intelligence and aerodynamic performance optimization techniques.

- Improving fan sizing and selection.
- Unsteady phenomena and flow non-uniformities in actual fan operation.
- Effects of flow characteristics and geometric non-similarities affecting fan scaling laws.
- New design and analysis methods based on Artificial Intelligence or Machine Learning.

Track 3: Fan Applications and Systems

- Compliance with legislation and regulations.
- Harmonization of fan standards worldwide.
- Connectivity technologies.
- Digital services and new business models.
- Predictive maintenance.
- Operation and maintenance considerations.
- Motors and drives.
- Specialized fans for niche applications.
- Retrofit and upgrading existing fan installations.
- Fan system effect.
- Energy related topics (e.g. air curtain effectiveness).
- Case studies (e.g. tunnel ventilation).

CONFERENCE VENUE

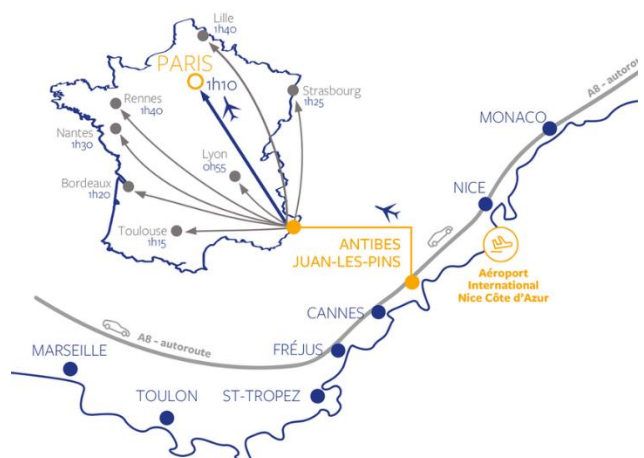

Juan-les-Pins, a charming French town within the commune of Antibes, lies just 30 minutes away from Nice along the stunning Mediterranean coast of the French Riviera. Accessible via the Juan-les-Pins station on the Marseille–Ventimiglia railway, this picturesque destination captivates visitors with its idyllic setting.

Renowned for its expansive sandy beaches and scenic seafront promenade adorned with inviting outdoor eateries and vibrant bars, Juan-les-Pins exudes coastal allure. Further inland, narrow streets reveal a plethora of additional dining establishments, lively bars, and pulsating nightclubs. Meanwhile, the tranquil Jardin de La Pinède park serves as the esteemed venue for the annual Jazz à Juan festival during the summer months, adding a touch of cultural flair to this seaside retreat.

Fan 2025 conference and exhibition will take place in the Palais des Congrès who is modern, well equipped, and conveniently located for those travelling to the conference both from France and internationally.
